

Dartmouth Rural STEM Educator Partnership

An educational outreach project funded by SEPA-NIGMS

SEPA Application

2022-2023 Academic Year

Due date: Friday, 12 August 2022

Note: the Guarini School has already approved graduate student participation in this program.

Application Packet should include the following (US Citizens or Permanent Residents only, due to funding restrictions):

1. Completed application (see page 2). (You need not return page one of this file.)
2. Recommendation letter (page 3) from your thesis advisor, which should be submitted directly via email as a pdf to Roger Sloboda (rds@dartmouth.edu). The letter should indicate your advisor's agreement with you assuming this extra work, indicate an assessment of how your involvement in this project will enhance your career goals and address your relevant qualifications.
3. Resume (include a list of honors, awards, publications, extracurricular activities, teaching experience, and professional experience – specifically as related to science education and outreach).
4. Short description of your thesis project, written for a lay audience (one paragraph).
5. A statement (up to one page) describing how you feel that (a) your research and background could be beneficial in support of the SEPA program; (b) how you might contribute to a middle school STEM educational experience—for both 7th grade students and teachers; and (c) how your participation in the program will advance your career goals.

Please return the above information as a single pdf file; the advisor letter of support should be sent separately. Please send all materials by the due date, Friday 12 August 2022, to:

Roger Sloboda
rds@Dartmouth.edu
