

Permission Slip for In-Class Fingerprinting Activity

DUE: INSERT DUE DATE HERE

On INSERT DATE OF ACTIVITY HERE, your student's science class will be doing a fingerprinting activity to explore concepts of pattern classification, data collection, and data interpretation. This activity will involve dusting items in the classroom with cocoa powder to collect prints. It will also involve students taking their own fingerprints using pencil graphite. Their fingerprints may be used for comparison and analysis by their lab groups using magnifying glasses, but they will not be shared electronically or kept as stored records. Students will have possession of their own fingerprints at the end of the activity.

Please sign this slip to indicate that your student has permission to participate in this activity, including taking their own fingerprints. If the cocoa powder is an allergen for your student, please let me know so we can arrange for an alternative to be used. If you have any questions or concerns, please contact me at INSERT TEACHER'S EMAIL HERE.

Child's name: _____

Parent / Guardian Signature: _____

Date: _____

Thank you,
